

# The Allure of

# Apollo® Colors.

## Aries® Phthalo Green

Apollo's established high solids quickset flush color line is designed for use in the manufacture of low VOC sheetfed inks. It is formulated to impart excellent gloss and to achieve set speeds equivalent to conventional solids sheetfed inks. The unique vehicle system of Aries Phthalo Green allows ink makers to formulate high viscosity, low yield value inks commonly associated with high quality ink systems. It also offers the flexibility to formulate high solids systems, work and turn, dry offset and inks for various substrates.
